City of St. Clair Shores
INTRODUCTION

The area of St. Clair Shores was inhabited by French settlers as early as 1710, at which time it was called L’anse Creuse. In 1911 the township’s name changed to Lake Township. As the area grew and immigrants from other areas came to the United States, the borders and demographics of St. Clair Shores changed. By the 1840s Michigan had become a state and began to regulate land division. The area was renamed Erin Township because of an influx of Irish settlers. The turn of century brought increased growth and prosperity to the city. In 1911, Erin Township split into sections and Lake Township was formed to include the area that is now St. Clair Shores.

In 1925, with a population of 7,000 Lake Township voted to become an incorporated village and change its name to St. Clair Shores. The Roaring 20’s prosperity brought about the construction of the Detroit Masonic County Club (later called the Lake Shore Country Club) at the site of today’s Veterans Memorial Park and an abundance of summer homes and playgrounds.

After World War II, the Shores experienced another population explosion, almost doubling the number of citizens. This population growth caused village leaders to see that the Shores was quickly outgrowing the title of “village” and on January 9, 1951, the voters approved a City Charter. On January 15, 1951, the first City Council met to approve our Council-Manager form of local government.

The city was once home to an amusement park named Jefferson Beach. Built in 1927, it featured the longest roller coaster in the United States. In 1955 a fire destroyed several buildings in the park. While Jefferson Beach attempted to rebuild, its owners slowly converted the park to a marina. The city is now known for its "Nautical Mile" - a strip of Jefferson Avenue featuring many retail establishments, boat dealers, and marinas.

The city is also known for its connection to Detroit's musical history (notable locations include Car City Records and the Crow's Nest East), its hockey association (which features more state championships than any other rink in the entire state) and is home to one of the longest running local pageants as a member of the Miss America Organization.

The City of St. Clair Shores serves all people of the state of Michigan, including minority populations, low-income populations, the elderly, persons with disabilities, and those who traverse the city. The City of St. Clair Shores recognizes its responsibility to provide fairness and equity in all its programs, services, and activities, and that it must abide by and enforce federal and state civil rights legislation.

Title VI of the Civil Rights Act of 1964, is the overarching civil rights law which prohibits discrimination based on race, color, or national origin, in any program, service or activity that receives federal assistance. Specifically, Title VI assures that, "No person in the United States shall, on the grounds of race, color, or national origin, be excluded from participation in, be denied the benefit of, or be otherwise subjected to discrimination under any program or activity receiving federal assistance." Title VI has been broadened by related statutes, regulations and executive orders. Discrimination based on sex is prohibited by Section 324 of the Federal-Aid Highway Act, which is the enabling legislation of the Federal Highway Administration (FHWA).
The Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 prohibit unfair and inequitable treatment of persons because of projects which are undertaken with Federal financial assistance. The Civil Rights Restoration Act of 1987 clarified the intent of Title VI to include all programs and activities of federal-aid recipients and contractors whether those programs and activities are federally funded or not.

In addition to statutory authorities, Executive Order 12898, "Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations," signed in February of 1994, requires federal agencies to achieve Environmental Justice as part of its mission by identifying disproportionately high and adverse human health or environmental effects of its programs, policies, and activities on minority populations and low-income populations. Environmental Justice Initiatives are accomplished by involving the potentially affected public in the development of transportation projects that fit within their communities without sacrificing safety or mobility. In 1997, the U.S. Department of Transportation (USDOT) issued its DOT Order to Address Environmental Justice in Minority Populations and Low-Income Populations to summarize and expand upon the requirements of Executive Order 12898 on Environmental Justice. Also, Executive Order 13166, "Improving Access to Services for Persons with Limited English Proficiency (LEP)," provides that no person shall be subjected to discrimination based on race, color, or national origin under any program or activity that receives Federal financial assistance.

As a recipient of federal financial assistance, the City of St. Clair Shores must provide access to individuals with limited ability to speak, write, or understand the English language. The City will not restrict an individual in any way from the enjoyment of any advantage or privilege enjoyed by others receiving any service, financial aid, or other benefit under its programs or projects. Individuals may not be subjected to criteria or methods of administration which cause adverse impact because of their race, color, or national origin, or have the effect of defeating or substantially impairing accomplishment of the objectives of the program because of race, color or national origin. Therefore, the primary goals and objectives of the City of St. Clair Shores' Title VI Program are:

1. To assign roles, responsibilities, and procedures for ensuring compliance with Title VI of the Civil Rights Act of 1964 and related regulations and directives.

2. To ensure that people affected by the City's programs and projects receive the services, benefits, and opportunities to which they are entitled without regard to race, color, national origin, age, sex, or disability.

3. To prevent discrimination in the City of St. Clair Shores' programs and activities, whether those programs and activities are federally funded or not.

4. To establish procedures for identifying impacts in any program, service, or activity that may create illegal adverse discrimination on any person because of race, color, national origin, age, sex, or disability; or on minority populations, low-income populations, the elderly, and all interested persons and affected Title VI populations.
5. To establish procedures to annually review Title VI compliance within specific program areas within the City.

6. To set forth procedures for filing and processing complaints by persons who believe they have been subjected to illegal discrimination under Title VI in the City’s services, programs or activities.

As a sub-recipient of federal transportation funds, the City of St. Clair Shores must comply with federal and state laws, and related statutes, to ensure equal access and opportunity to all persons, with respect to transportation services, facilities, activities, and programs, without regard to race, color, national origin, sex, socio-economic status, or geographical location. Every effort will be made to prevent discrimination in any program or activity, whether those programs and activities are federally funded or not, as guaranteed by the Civil Rights Restoration Act of 1987.

The City of St. Clair Shores shall also ensure that their sub-recipients adhere to state and federal law and include in all written agreements or contracts, assurances that the sub-recipient must comply with Title VI and other related statutes. The City of St. Clair Shores, as a sub-recipient who distributes federal transportation funds, shall monitor their sub-recipients for voluntary compliance with Title VI. If non-compliance is discovered, the city will make a good faith effort to ensure that the sub-recipient corrects any deficiencies arising out of complaints related to Title VI; and that sub-recipient will proactively gauge the impacts of any program or activity on minority populations and low-income populations, the elderly, persons with disabilities, all interested persons and affected Title VI populations.
**Discrimination under Title VI**

There are two types of illegal discrimination prohibited under Title VI and its related statutes. One type of discrimination which may or may not be intentional is “disparate treatment.” Disparate treatment is defined as treating similarly situated persons differently because of their race, color, national origin, sex, disability, or age.

The second type of illegal discrimination is “disparate impact.” Disparate impact discrimination occurs when a “neutral procedure or practice” results in fewer services or benefits, or inferior services or benefits, to members of a protected group. With disparate impact, the focus is on the consequences of a decision, policy, or practice rather than the intent.

The City of St. Clair Shores’ efforts to prevent such discrimination must address, but not be limited to, a program’s impacts, access, benefits, participation, treatment, services, contracting opportunities, training, investigation of complaints, allocation of funds, prioritization of projects, and the overarching functions of planning, project development and delivery, right-of-way, construction, and research.

The City of St. Clair Shores has developed this Title VI Plan to assure that services, programs, and activities of the city are offered, conducted, and administered fairly, without regard to race, color, national origin, sex, age, or disability of the participants or beneficiaries of federally funded programs, services, or activities (see Title VI Assurances).
CITY OF ST. CLAIR SHORES
NON-DISCRIMINATION POLICY STATEMENT

The City of St. Clair Shores reaffirms its policy to allow all individuals the opportunity to participate in federal financially assisted services and adopts the following provision:

“No person in the United States shall, on the grounds of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance.” In applying this policy, the City and its sub-recipients of federal funds shall not:

1. Deny any individual with any service, opportunity, or other benefit for which such individual is otherwise qualified.

2. Provide any individual with any service, or other benefit, which is inferior (in quantity or quality) to, or which is provided in a different manner from that which is provided to others.

3. Subject any individual to segregated or disparate treatment in any manner related to such individual’s receipt of services or benefits.

4. Restrict an individual in any way from the enjoyment of services, facilities or any other advantage, privilege or other benefit provided to others.

5. Adopt or use methods of administration, which would limit participation by any group of recipients or subject any individual to discrimination.

6. Address any individual in a manner that denotes inferiority because of race, color, or national origin.

7. Permit discriminatory activity in a facility built in whole or in part with federal funds.

8. Deny any segment of the population the opportunity to participate in the operations of a planning or advisory body that is an integral part of a federally funded program.

9. Fail to provide information in a language other than English to potential or actual beneficiaries who are of limited English-speaking ability, when requested and as appropriate.

10. Subject an individual to discriminatory employment practices under any federally funded program whose objective is to provide employment.

11. Locate a facility in any way, which would limit or impede access to a federally funded service or benefit.
The City of St. Clair Shores will actively pursue the prevention of any Title VI deficiencies or violations and will take the necessary steps to ensure compliance. If irregularities occur in the administration of the program’s operation, procedures will be promptly implemented to resolve Title VI issues all within a period not to exceed 90 days.

The City of St. Clair Shores designates Michael J Greene, Interim City Manager as the Title VI Coordinator. The City Manager will be responsible for initiating and monitoring Title VI activities and other required matters, ensuring that the City of St. Clair Shores complies with the Title VI regulations and pursues prevention of Title VI deficiencies or violations. LIMITED ENGLISH PROFICIENCY (LEP)

On August 11, 2000, President William J. Clinton signed an executive order, Executive Order 13166: Improving Access to Service for Persons with Limited English Proficiency, to clarify Title VI of the Civil Rights Act of 1964. It had as its purpose, to ensure accessibility to programs and services to otherwise eligible persons who are not proficient in the English language.

This executive order stated that individuals who do not speak English well and who have a limited ability to read, write and speak, or understand English are entitled to language assistance under Title VI of the Civil Rights Act of 1964 with respect to a particular type of service, benefit, or encounter. These individuals are referred to as being limited in their ability to speak, read, write, or understand English, hence the designation, “LEP,” or Limited English Proficient. The Executive Order states that:

"Each federal agency shall prepare a plan to improve access to its federally conducted programs and activities by eligible LEP persons. Each plan shall be consistent with the standards set forth in the LEP Guidance and shall include the steps the agency will take to ensure that eligible LEP persons can meaningfully access the agency’s programs and activities."

Not only are all federal agencies required to develop LEP plans as a condition of receiving federal financial assistance, but recipients also must comply with Title VI and LEP guidelines of the federal agency from which funds are provided as well.

Federal financial assistance includes grants, training, use of equipment, donations of surplus property, and other assistance. Recipients of federal funds range from state and local agencies to nonprofits and organizations. Title VI covers a recipient’s entire program or activity. This means all parts of a recipient’s operations are covered, even if only one part of a recipient’s organization receives the federal assistance. Simply put, any organization that receives federal financial assistance is required to follow this Executive Order.

The City of St. Clair Shores receives funds from the US Department of Transportation via the Federal Highway Administration.

For more information regarding our policies on LEP, a copy of our LEP plan can be found on our website at www.scsmi.net or requested from:

ENVIRONMENTAL JUSTICE (EJ)

Compliance with Title VI includes ensuring that no minority or low-income population suffers "disproportionately high and adverse human health or environmental effect" due to any "programs, policies and activities" undertaken by any agency receiving federal funds. This obligation will be met by the city in the following ways:

- When planning specific programs or projects, identifying those populations that will be affected by a given program or project.

- If a disproportionate effect is anticipated, following mitigation procedures.

- If mitigation options do not sufficiently eliminate the disproportionate effect, discussing and, if necessary, implementing reasonable alternatives.

Disproportionate effects are those effects which are appreciably more severe for one group or predominantly borne by a single group. The city will use U.S. Census data to identify low income and minority populations.

Where a project impacts a small number or area of low income or minority populations, the city will document that:

- Other reasonable alternatives were evaluated and were eliminated for reasons such as the alternatives impacted a far greater number of people or did greater harm to the environment; etc.

- The project’s impact is unavoidable.

- The benefits of the project far out-weigh the overall impacts; and

- Mitigation measures are being taken to reduce the harm to low income or minority populations.

If it is concluded that no minority and/or low-income population groups are present in the project area, the city will document how the conclusion was reached. If it is determined that one or more of these population groups are present in the area, the city will administer a potential disproportionate effects test.

The following steps will be taken to assess the impact of projects on minorities and/or low-income population groups:

STEP ONE: Determine if a minority or low-income population is present within the project area. If the conclusion is that no minority and/or low-income population is present within the project area, document how the conclusion was reached. If the conclusion is that there are minority population groups and/or low-income population groups present, proceed to Step Two.
**STEP TWO:** Determine whether project impacts associated with the identified low income and minority populations are disproportionately high and adverse. In doing so, refer to the list of potential impacts and questions contained in Appendix E. If it is determined that there are disproportionately high and adverse impacts to minority and low-income populations, proceed to Step Three.

**STEP THREE:** Propose measures that will avoid, minimize and/or mitigate disproportionately high and disproportionate adverse impacts and provide offsetting benefits and opportunities to enhance communities, neighborhoods and individuals affected by proposed project.

**STEP FOUR:** If after mitigation, enhancements and offsetting benefits to the affected populations, there remains a high and disproportionate adverse impact to minority or low-income populations, then the following questions must be considered:

- **Question 1:** Are there further mitigation measures that could be employed to avoid or reduce the adverse effect to the minority or low-income population?
- **Question 2:** Are there other additional alternatives to the proposed action that would avoid or reduce the impacts to the low income or minority populations?
- **Question 3:** Considering the overall public interest, is there a substantial need for the project?
- **Question 4:** Will the alternatives that would satisfy the need for the project and have less impact on protected populations (a) have other social economic or environmental impacts that are more severe than those of the proposed action (b) have increased costs of extraordinary magnitude?

**STEP FIVE:** Include all findings, determinations or demonstrations in the environmental document prepared for the project.

APPENDIX E - DETERMINE/DISTINGUISH SIGNIFICANT/NON-SIGNIFICANT EFFECTS

"Significant" requires considerations of both context and intensity:

(a) Context. This means that the significance of an action must be analyzed in several contexts such as society (human, nation), the affected region, the affected interests, and the locality. Significance varies with the setting of the proposed action. For instance, in the case of a site-specific action, significance would usually depend upon the effects in the local area rather than in the world. Both short-and long-term effects are relevant.

(b) Intensity. This refers to the severity of impact. Responsible officials must bear in mind that more than one agency may make decisions about partial aspects of a major action. The following should be considered in evaluating intensity:
   (1) Impacts that may be both beneficial and adverse. A significant effect may exist even if, on balance, the effect would be beneficial.

"Non-significant effect" means no substantial change to an environmental component, and this has no material bearing on the decision-making process.

Scientific, technical, institutional, the public's value, and the local economic conditions influence the meaning of significant effect.

If an alternative would provide a beneficial effect, then the alternative would cause no significant adverse effect. If an alternative would provide an adverse effect, the effect might be significant or the effect might be non-significant.

Determinations of "significant" and "non-significant" effects will be made by the City Manager.

A RESOLUTION OF THE
CITY OF ST. CLAIR SHORES
ADOPTING THE
LIMITED ENGLISH PROFICIENCY (LEP) PLAN

WHEREAS, in accordance with Title VI non-discrimination laws regarding providing appropriate access to services and activities provided by federal agencies and recipients of federal assistance, the Limited English Proficiency Plan was drafted to define how City of St. Clair Shores will accommodate persons with Limited English Proficiency: and

WHEREAS individuals who do not speak English well and who have a limited ability to read, write, speak, or understand English are entitled to language assistance under Title VI of the Civil Rights Act of 1964 with respect to a particular type of service, benefit, or encounter; and

NOW, THEREFORE, BE IT RESOLVED that Mayor and Council approve and adopt the Limited English Proficiency Plan for the City of St. Clair Shores.

Adopted the 16th day of May 2022.
Introduction

On August 11, 2000, President William J. Clinton signed an executive order, Executive Order 13166: Improving Access to Service for Persons with Limited English Proficiency, to clarify Title VI of the Civil Rights Act of 1964. It had as its purpose, to ensure accessibility to programs and services to otherwise eligible persons who are not proficient in the English language.

This executive order stated that individuals who do not speak English well and who have a limited ability to read, write and speak, or understand English are entitled to language assistance under Title VI of the Civil Rights Act of 1964 with respect to a particular type of service, benefit, or encounter. These individuals are referred to as being limited in their ability to speak, read, write, or understand English, hence the designation, “LEP,” or Limited English Proficient. The Executive Order states that:

“Each federal agency shall prepare a plan to improve access to its federally conducted programs and activities by eligible LEP persons. Each plan shall be consistent with the standards set forth in the LEP Guidance and shall include the steps the agency will take to ensure that eligible LEP persons can meaningfully access the agency’s programs and activities.”

Not only do all federal agencies have to develop LEP plans as a condition of receiving federal financial assistance, but recipients also must comply with Title VI and LEP guidelines of the federal agency from which funds are provided as well.

Federal financial assistance includes grants, training, use of equipment, donations of surplus property, and other assistance. Recipients of federal funds range from state and local agencies to nonprofits and organizations. Title VI covers a recipient’s entire program or activity. This means all parts of a recipient’s operations are covered, even if only one part of a recipient’s organization receives the federal assistance. Simply put, any organization that receives federal financial assistance is required to follow this Executive Order.

The City of St. Clair Shores receives funds from the US Department of Transportation via the Federal Highway Administration.

The US Department of Transportation published Policy Guidance Concerning Recipients’ responsibilities to Limited English Proficient Person in the December 14th, 2005, Federal Register.

The Guidance implies that the City of St. Clair Shores is an organization that must follow this guidance:

This guidance applies to all DOT funding recipients, which include state departments of transportation, state motor vehicle administrations, airport operators, metropolitan planning organizations, and regional, state, and local transit operators, among many others. Coverage
extends to a recipient’s entire program or activity, i.e., to all parts of a recipient’s operations. This is true even if only one part of the recipient receives the Federal assistance. For example, if DOT provides assistance to a state department of transportation to rehabilitate a particular highway on the National Highway System, all the operations of the entire state department of transportation—not just the highway program or project—are covered by the DOT guidance.

**Elements of an Effective LEP Policy**

The US Department of Justice, Civil Rights Division has developed a set of elements that may be helpful in designing an LEP policy or plan. These elements include:

1. Identifying LEP persons who need language assistance
2. Identifying ways in which language assistance will be provided
3. Training Staff
4. Providing notice to LEP persons
5. The recommended method of evaluating accessibility to available transportation services is the Four-Factor Analysis identified by the USDOT.

These recommended plan elements have been incorporated into this plan.

**Methodology for Assessing Needs and Reasonable Steps for an Effective LEP Policy**

The DOT guidance outlines four factors’ recipients should apply to the various kinds of contacts they have with the public to assess language needs and decide what reasonable steps they should take to ensure meaningful access for LEP persons:

1. The number or proportion of LEP persons eligible to be served or likely to be encountered by a program, activity, or service of the recipient or grantee.
2. The frequency with which LEP individuals come in contact with the program.
3. The nature and importance of the program, activity, or service provided by the recipient to the LEP Community.
4. The resources available to the City of St. Clair Shores and overall cost.

The greater the number or proportion of eligible LEP persons, the greater the frequency with which they have contact with a program, activity, or service and the greater the importance of that program, activity, or service, the more likely enhanced language services will be needed. The intent of DOT’s guidance is to suggest a balance that ensures meaningful access by LEP persons to critical services while not imposing undue burdens on small organizations and local governments.

Smaller recipients with more limited budgets are typically not expected to provide the same level of language service as larger recipients with larger budgets.
The DOT guidance is modeled after the Department of Justice’s guidance and requires recipients and sub-recipients to take steps to ensure meaningful access to their programs and activities to LEP persons. More information for recipients and sub-recipients can be found at http://www.lep.gov.

The Four-Factor Analysis

This plan uses the recommended four-factor analysis of an individualized assessment considering the four factors outlined above. Each of the following factors is examined to determine the level and extent of language assistance measures required to sufficiently ensure meaningful access to City of St. Clair Shores services and activities that may affect their quality of life. Recommendations are then based on the results of the analysis.

Factor 1: The Proportion, Numbers and Distribution of LEP Persons

The Census Bureau has a range for four classifications of how well people speak English. The classifications are: ‘very well,’ ‘well,’ ‘not well,’ and ‘not at all.’ For our planning purposes, we are considering people that speak English less than ‘very well’ as Limited English Proficient persons.

As seen in Table #1, the Census 2021 Data for the City of St. Clair Shores shows that 2,527 (4.5%) of individuals in the City speak a language other than English; of those individuals, 740 (1.3%) have identified themselves as speaking English less than ‘very well.” A percentage greater than 5% require a separate LEP Plan.

Factor 2: Frequency of Contact with LEP Individuals

The city has conducted an informal survey of our employees about whether they have had encounters with LEP individuals in the performance of their job functions and found that they have not had any encounters with LEP individuals. We have offices accessible to the public and therefore accessible to LEP individuals. We also have staff that work in the field that could encounter LEP individuals. Additionally, regular Council meetings are held at 7pm on the 1st and 3rd Monday of each month, which would potentially bring LEP individuals to these meetings. Given the number of LEP individuals, as displayed in Table #1 (above), the probability of our employees to encounter an LEP individual is moderate.

Factor 3: The Nature and Importance of the Program, Activity, or Service to LEP

The City of St. Clair Shores serves individuals throughout the city in a variety of ways including managing roads, water, sewer, police, fire, elections, and other services to residents and other individuals, such as visitors and those traversing the state. The nature of the services that the city provides is very important to an individual’s day-to-day life. Therefore, the denial of services to an LEP individual could have a significant detrimental effect. Given the number of LEP individuals in the city, we will ensure accessibility to all our programs, services, and activities.

Factor 4: The Resources Available to the City of St. Clair Shores and Overall Cost

US Department of Transportation Policy Guidance Concerning Recipients’ Responsibilities to Limited English Proficient (LEP) Persons published in the Federal Register: December 14, 2005 (Volume 70, Number 239) states:

"A recipient’s level of resources and the costs imposed may have an impact on the nature of the steps it should take in providing meaningful access for LEP persons. Smaller recipients with more limited budgets are not expected to provide the same level of language services as larger recipients with larger budgets. In addition, “reasonable steps” may cease to be reasonable where the costs imposed substantially exceed the benefits. Recipients should carefully explore the most cost-effective means of delivering competent and accurate language services before limiting services due to resource concerns."

Based on this guidance, we have reviewed our resources and deemed that given the high concentration of LEP individuals in our City, upon request, we will translate our vital documents into the language requested to ensure accessibility.
Although there will not be a fixed amount allocated from our yearly budget for the translation of documents, the cost associated with the necessary translation of document to comply with LEP requirements will be allocated on an as-needed basis.

**Safe Harbor Stipulation**

Federal law provides a "Safe Harbor" situation so that recipients can ensure with greater certainty that they comply with their obligation to provide written translations in languages other than English. A "Safe Harbor" means that if a recipient provides written translation in certain circumstances, such action will be considered strong evidence of compliance with the recipient's written-translation obligations under Title VI.

The failure to provide written translations under the circumstances does not mean there is non-compliance, but rather provides a guide for recipients that would like greater certainty of compliance than can be provided by a fact-intensive, four factor analysis. For example, even if a Safe Harbor is not used, if written translation of a certain document(s) would be so burdensome as to defeat the legitimate objectives of its program, it is not necessary. Other ways of providing meaningful access, such as effective oral interpretation of certain vital documents, might be acceptable under such circumstances.

Strong evidence of compliance with the recipient's written translation obligations under "Safe Harbor" includes providing written translations of vital documents for each eligible LEP language group that constitutes 5% or 1,000, whichever is less, of the population of persons eligible to be served or likely to be affected or encountered. Translation of other documents, if needed, can be provided orally.

This "Safe Harbor" provision applies to the translation of written documents only. It does not affect the requirement to provide meaningful access to LEP individuals through competent oral interpreters where oral language services are needed and are reasonable.

Given that the number of LEP individuals in the City is above the Safe Harbor threshold, written translations of vital documents will be made upon request, or oral interpretation can be provided. The City of St. Clair Shores will translate all vital documents, which may include but not be limited to the complaint form, complaint procedures, and all public meeting notices.

**Providing Notice to LEP Persons**

USDOT LEP guidance says:
Once an agency has decided, based on the four factors, that it will provide language service, it is important that the recipient notify LEP persons of services available free of charge. Recipients should provide this notice in languages LEP persons would understand.
The guidance provides several examples of notification including:

1. Signage, in languages that an LEP individual would understand that free language assistance is available with advance notice.
2. Stating in outreach documents that free language services are available from the agency.
3. Working with community-based organizations and other stakeholders to inform LEP individuals of the recipient’s services, including the availability of language assistance services.

Statements in languages that an LEP individual would understand will be placed in public information and public notices informing LEP individuals that those requiring language assistance and/or special accommodations will be provided the requested service free of charge, with reasonable advance notice to the City of St. Clair Shores.

Options and Proposed Actions

Options:
Federal fund recipients have two (2) main ways to provide language services: oral interpretation either in person or via telephone interpretation service and written translation. The correct mix should be based on what is both necessary and reasonable considering the four-factor analysis.iv

The City of St. Clair Shores is defining an interpreter as a person who translates spoken language orally, as opposed to a translator, who translates written language or who transfers the meaning of written text from one language into another. The person who translates orally is not a translator, but an interpreter.v

Due to limited financial resources, it is necessary to limit language aid to the most basic and cost-effective services. However, when requested appropriate assistance will be provided.

What the City of St. Clair Shores will do. What actions will the City of St. Clair Shores take?

• Notify the public that interpreter services are available upon request, with seven-day advance notice.

• With advance notice of seven calendar days, the city will provide interpreter services at public meetings, including language translation and signage for the hearing impaired.

• The city will utilize the Translators Resource List as provided by MDOT for translation services and verbal interpretation.
• The Census Bureau "I-speak" Language Identification Card will be distributed to all employees that may potentially encounter LEP individuals.

• Once the LEP individual’s language has been identified, an agency from the Translators Resource List will be contacted to provide interpretation services.

• Publications of the City’s complaint form will be made available online and upon request.

• In the event that a City employee encounters a LEP individual, they will follow the procedure listed below:

  OFFICE ENCOUNTER

  1. Provide an I-speak language identification card to determine the language spoken by the LEP individual.

  2. Once the foreign language is determined, provide information to Title VI Coordinator who will contact an interpreter from MDOT’s Translators Resource List.

  3. If the need is for a document to be translated, the Title VI Coordinator will have the document translated and provided to the requestor as soon as possible.

  ROAD ENCOUNTER

  1. Road crew employee will immediately contact the Title VI Coordinator for assistance, and provide an I-speak language identification card to the LEP individual to determine the language spoken by the individual.

  2. Once the foreign language is determined, provide information to Title VI Coordinator who will contact an interpreter from MDOT’s Translators Resource List to provide telephonic interpretation.

  3. If the need is for a document to be translated, the Title VI Coordinator will have the document translated and provided to the requestor as soon as possible.

  IN WRITING

  1. Once a letter has been received it will be immediately forwarded to the Title VI Coordinator.

  2. The Title VI Coordinator will contact a translator from the MDOT’s Translators Resource List to determine the specifics of the letter request information.

  3. The Title VI Coordinator will work with the selected agency to provide the requested service to the individual in a timely manner.
OVER THE PHONE

1. If someone calls into our office speaking another language, every attempt will be made to keep that individual on the line until an interpreter can be conferenced into the line, and if possible, determine the language spoken by the caller.

2. Once the language spoken by the caller has been identified, we will proceed with providing the requested assistance to the LEP individual.

The City of St. Clair Shores’ Staff Training

The City of St. Clair Shores’ staff will be provided training on the requirements for providing meaningful access to services for LEP persons.
